### **WM526 Series Electronic Floor Pedal Assembly**

WM526 electronic floor pedal assemblies are used in vehicles with electronically controlled engines. They provide a voltage output signal to the engine fuel control system in proportion to the angle of treadle actuation. WM526 foot pedals comply with FMVSS-124 requirements when installed according to Williams Controls' specifications.

#### **Specifications:**

Operating temperature: -40°F to 185°F (-40°C to 85°C)

Treadle travel: 17°

Materials: Castings—Corrosion protected die cast aluminum

Sensor shaft—Stainless steel

Roller—Polypropylene

Base plate—Zinc plated steel

Springs—Stainless steel

Weight: 3 lb, 12 oz (1.70 kg)

Mounting pattern and pedal angle: Can be customized to customer requirements

Available connectors: Packard, AMP, and Deutsch

Available with and without Kick-down feeling

#### **WM526, WM540, and WM528 are all compatible with the following engines and controllers:**

Caterpillar  
Cummins  
DAF
